7/31/74

Dear Don,

Your note mailed the 27th came yesterday, when I had to be in Washington.

Because I had expected that your people would have been in touch with Dave I tried to phone him. His answering service did not answer. I made several efforts and I can't explain it.

However, if they try and can get no answer, perhaps they should get in touch with me directly.

Because there was no intercept I am inclined to think that his phone was out of order but I don't know.

The matters that took me to Washington also took the entire day so I did not have time to go to his office.

Jim and I both believe that one of the projects on which we are working has TV possibilties and perhaps movie, a kind of underground movie that would cost little.

Look forward to hearing further.

Sincerely,
